

CAE LearningSpace

Performance
improvement for
training environments

Invest in a Solution that Will Grow With You

Size and functionality are based on the needs and budget of your facility. CAE LearningSpace gives you the ability to start with 1 or 2 rooms and add on as needs change or budget becomes available. Utilize the software to simply record and debrief, manage resources, and handle whatever needs the future may bring.

Your worldwide training partner of choice

Consultation and Project Management

As a complimentary service, we provide facility walk-throughs, floorplan review, detailed quoting, IT infrastructure and network cabling design. We work hand in hand with AV integrators and offer complete installation services; all with a staff dedicated to, and experienced in, facilities just like yours.

“LearningSpace is a system that can grow with the organization, enriching both the student journey and faculty management of educational activities.”

Ann Sunderland, Director of Clinical Skills and Simulation at Leeds Beckett University

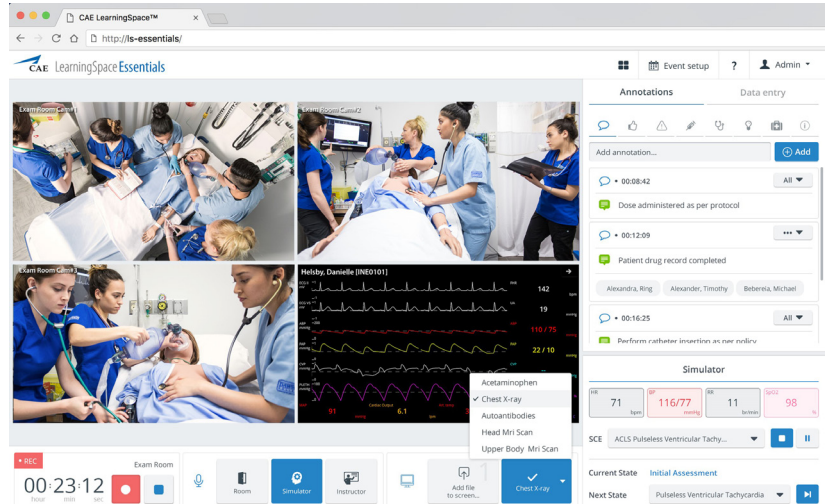

“We utilize LearningSpace for pre and post course work and for summative testing. We have committed to having this program as our primary learning management system and could not function without it.”

Daniel Summers, Director of Clinical Simulation at West Virginia University

Improved Customer Service and New Training Options

Teams of support engineers and representatives are located in the US and abroad, available from 8am EST to 8pm EST, as well as for pre-scheduled after hours events. Customizable training is available at your facility, through videos, webinars, user group forums at major conferences, and more.

What's New in 2018

- Three LearningSpace software tiers; Experience, Essentials, Enterprise
- No need to install additional third party software or plug-ins.
- Inventory Management
